

REMARKS

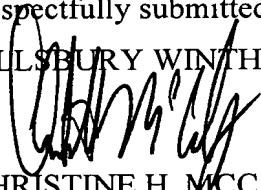

By this Response, claims 1-7 and 10-19 are amended to merely clarify the recited subject matter, claims 8-12 are canceled without prejudice or disclaimer and new claim 20 is added.

The Office Action requested election of the claims from one of Group I (claims 1-7 and 13-18), Group II (claim 8), and Group III (claim 9). Applicant elects Group I but traverses the restriction requirement with regard to claims 8 and 9 because the recited subject matter of claims 8 and 9 is sufficiently related to each other to warrant examination on the merits together in a single application.

Claim 8 relates to a server and claim 9 relates to a message service center participating in a same updating procedure wherein a terminal equipment, while roaming in a mobile communication system, updates the Internet access point settings of the terminal equipment by requesting the Internet access point settings from an Internet server via the mobile communication system, and optionally via a message service center. Thus, claims 8 and 9 relate to a single general inventive concept and can be included into a single divisional application.

New claim 20 warrants consideration with the elected Group because recites terminal equipment similar to that recited in Group 1.

Please charge any fees associated with the submission of this paper to Deposit Account Number 033975. The Commissioner for Patents is also authorized to credit any over payments to the above-referenced Deposit Account.

Respectfully submitted,
